

PRESS RELEASE 19<sup>th</sup> October, 2012

## NATIONAL ASSOCIATION OF LINKS MEMBERS

### Revalidation of Doctors

NALM welcomes the GMC announcement of the revalidation of doctors.

Malcolm Alexander, Chair of NALM said, "We have been working for two years to achieve this end. Healthcare is a service of intimacy at a time of vulnerability and it is vital that all doctors are up to date with current practice and deliver the highest quality of care.

Patient feedback must be at the heart of the revalidation process.

On-going, rich and timely information from those in receipt of care is essential if the revalidation process is to be meaningful and effective"
